Home Garden Solid Products

Product	Size	Price (incl. GST)	Description
Compost	1t	172.00	Improve soil fertility by increasing microbial activity and storing plant nutrients
Garden Mulch	1t	87.00	Great way of saving water and suppressing weeds
EF Activated Carbon (BioGro)	10kg	26.00	Bio-Char is an enduring carbon source with amazing plant growth enhancement properties
Calci-Sil	20kg	18.00	Great source of plant-available calcium
EF BAS 50 (BioGro)	20kg	18.00	Trace minerals sourced from highly paramagnetic basalt rock
EF Bio Rocket	5kg 20kg	20.00 67.00	Soluble; humate stabilised; N, P, S and Ca to increase soil energy
EF Multi Cal	20kg	25.00	Three quality calcium sources plus carbon to prevent leaching from root zone
EF Nano Cal	20kg	25.00	Fine micron calcium carbonate, trace minerals and sugar to promote beneficial soil bacteria growth
EF Natures Nitro	1t	154.00	Contains EF Raw Humates along with high levels of calcium and carbon to detoxify soils, balance soil pH and improve water holding capacity
EF Natures Garden Fertiliser (NGF)	20kg	41.00	Full-spectrum biological soil and plant nutrition suitable for vegetables, flowers and fruit
EF Natures Organic Fertiliser (BioGro)	5kg 20kg	15.00 37.00	General garden fertiliser. A blend of Soil Force, Recharge and BAS 50
EF Raw Humates (BioGro)	20kg	25.00	Good for improving the soil water-holding capacity. Fungal food, detoxifier and nutrient stabiliser
EF Recharge (BioGro)	20kg	25.00	Composted calcium carbonate with EF Raw Humates
EF Soil Conditioner (BioGro)	20kg	15.00	Opens up compacted soil using calcium and sulphur
EF Soil Force (BioGro)	20kg	37.00	Composted RPR with humic acid, fish protein and basalt rock dust
EF Soil Mag (BioGro)	20kg	18.00	Composted magnesium containing crushed serpentine rock, raw humates and fish
EF Soluble Nitrocal	25kg 1t	40.00 1000.00	Increases calcium availability, providing both nitrate nitrogen and ammonium nitrogen, to increase soil energy levels and boost pasture and crop vegetative growth
EF Soluble Humates	20kg	60.00	Holds nutrients in the soil and adds carbon

Home Garden Liquid Products

Product	Size	Price (incl. GST)	Description
EF Carbon +	125 ml 1L	56.35 172.50	Nano-Surfactant that helps crops translocate nutrients and water more efficiently. Soil microbes and mycorrhizae respond to this stimulus by converting more soil nutrients into plant-available form.
EF A.C.E	1L 5L	15.00 39.00	Liquid Fulvic acid. Add to foliar feeds, animal feeds and as herbicide amelioration
EF Activated Carbon Foliar (BioGro)	1L 5L	15.00 30.00	Liquid Bio-Char is a stable carbon source with amazing plant growth enhancement properties
EF Bio-Cal (BioGro)	1L 5L	15.00 28.00	Liquid calcium spray to lift calcium availability in soil
EF Cal Bor (BioGro)	1L 5L	15.00 30.00	Micronised boron with liquid kelp and humates
EF Calcium Trigger	1kg 10kg 1t	1.00 10.00 1000.00	Stimulates root growth, boosts calcium levels for higher brix crop growth
EF Cal Phos (BioGro)	1L 5L	15.00 26.00	Liquid micronised RPR used to increase calcium and phosphate availability and boost Brix reading
EF Fish Plus (BioGro)	1L 5L	15.00 50.00	Organic foliar feed. Contains hydrolysed fish and kelp
EF Fruit Size	1L 5L	15.00 41.00	Foliar spray to fill fruit and increase fruit size
EF Glypho-Mate (weed spray)	1L 5L	21.00 92.00	Use this product if glyphosate herbicide is required, as it reduces negative soil impacts
EF Humus Builder	1L 5L	15.00 35.00	Boosts photosynthesis, root growth, rhizosphere microbes and humus creation
EF Liquid Alkaline Humates	1L 5L	15.00 55.00	Potassium humate-based bio-stimulant with many benefits for soil and plant health
EF Liquid Kelp (BioGro)	1L 5L	15.00 50.00	Full-spectrum foliar and soil trace-mineral supplement
EF Micronised Humates (BioGro)	1L 5L	15.00 70.00	Humic acid-based bio-stimulant with many benefits for soil and plant health
EF Reproductive Foliar	1L 5L	15.00 39.00	To ensure flower production and fruit set in tomatoes and fruit trees
EF Vegetative Foliar	1L 5L	15.00 39.00	Full spectrum foliar nutrition to boost yield of nutrient-dense food

Humates

Product	Size	Price (incl. GST)	Description
EF Fulvic Acid Powder	1kg	24.80	Promotes crop residue decomposition, boosts plant immunity, enhances seed germination and early growth
	25kg	450.00	
EF Micronised Humates (BioGro)	1L	15.00	Humic acid-based bio-stimulant with many benefits for soil and plant health
	5L	70.00	
EF Raw Humates (BioGro)	20kg	25.00	Good for improving the soil water-holding capacity. Fungal food, detoxifier and nutrient stabiliser
EF Soluble Humate Granules	20kg	52.17	Increases CEC, protects against sodium and pH fluctuations, increased aeration and has natural chelating capacity
EF Activated Carbon Foliar (BioGro)	1L	15.00	Liquid Bio-Char is a stable carbon source with amazing plant growth enhancement properties
	5L	30.00	
EF A.C.E	1L	15.00	Liquid Fulvic acid. Add to foliar feeds, animal feeds and as herbicide amelioration
	5L	39.00	

Animal Health

Product	Size	Price (incl. GST)	Description
Poultry Minerals	5kg	29.00	Poultry food additive to enhance health, growth and egg production
	20kg	115.00	
Poultry miticide	1L	15.00	Biological mite control that enhances poultry health and egg production
	5L	47.00	
Stock Lick (powder)	20kg	57.50	Top quality vitamins and minerals, amino and humic acids plus ag salt for healthy stock
Stock Primer	1L	15.00	Humate-based mineral drench/ food supplement for chickens, dogs, cattle, sheep and horses
	5L	55.00	
Equine Stock Primer			Powerful detoxifier, improves digestion and reproduction, and promotes vigour and wellbeing in horses

Microbial Inoculants

Product	Size	Price (incl. GST)	Description
EF Combo 12 Powder (12 species)	100g	20.00	Predatory fungi and insect parasite mix for dealing with plant pests and diseases, including potato psyllid
	500g	69.00	
	1kg	115.00	
EF 10/25 Soil Microbes	100g	17.40	Mix of bacteria and predatory fungi acting to improve soil structure and fertility.
	1kg	100.00	
EF Bio-Vam	100g	20.00	End- and ecto-mycorrhizal fungi plus other beneficial soil microbes
	500g	69.00	
	1kg	115.00	
Microbe Food	1kg	15.00	Microbe food formula to encourage rapid multiplication of microbes for compost tea and microbe brews
	5kg	60.00	
EF Bacillus Subtilis	1L	20.00	Controls Powdery Mildew and Downy Mildew, triggers plant immune system activation. Non-toxic
	5L	50.00	
	20L	160.00	
EF Fermenters	1L	15.00	Foliar fertiliser with beneficial microbes present
	5L	29.00	
EF P.S.A Brew	1L	0.50	Increases beneficial microbial diversity on vine foliage and in soil, with no with-holding period. Non-toxic
	1000L	500.00	
Effluent Treatment			Stimulates aerobic microbial activity in effluent ponds, digests solids into plant-available liquid nutrients
EF Compost Tea Brewing Kit		255.00	20L compost tea brewer (makes 1000L in total); a liquid fertiliser, bio-stimulant and pest management tool
Replacement Microbes and Food		127.00	For compost tea brewing. Makes 1000L

Chelates

Product	Size	Price (incl. GST)	Description
Boron Chelate	1L	21.38	Micronutrient fertiliser that provides readily available boron for plants
	5L	70.58	
	20L	235	
Copper Chelate	1L	15.7	Micronutrient fertiliser that provides readily available copper for plants
	20L	219.45	
Iron Chelate	20L	156.75	Micronutrient fertiliser that provides readily available iron for plants
Magnesium Chelate	1L	13.05	Micronutrient fertiliser that provides readily available magnesium for plants
	20L	141.1	
Manganese Chelate	1L	13.05	Micronutrient fertiliser that provides readily available manganese for plants
	5L	47.05	
	20L	156.75	
	1t	1100.00	
Molybdenum Chelate	1L	13.05	Micronutrient fertiliser that provides readily available molybdenum for plants
	20L	200.00	
Selenium Chelate	1L	30.00	Micronutrient fertiliser that provides readily available selenium for plants
Zinc Chelates	1L	12.00	Micronutrient fertiliser that provides readily available zinc for plants
	5L	30.00	
	20L	90.00	
	200L	700.00	

Equipment

Product	Size	Price (incl. GST)	Description
Garlic Crushers		46.00	Strong, robust garlic crusher for extracting juice from plants to measure brix levels
Hose venturi diluter units	5L	18.00	Fast, convenient, hassle-free liquid foliar feeding while watering your garden
Refractometers		150.00	For measuring the brix (sugar content) of plants

Soil Testing and Recommendations

Product	Size	Price (incl. GST)	Description
Reams Soil Tests		69.00	Tests the plant-available minerals in the soil
Melnich 3 Mineral Reserves plus trace minerals		258.75	Cation Exchange Capacity (CEC) soil test carried out by Southern Cross University in Lismore, Australia
Fertiliser recommendations		144.00	Analysing the Reams Soil Test results, EF technical consultants will make recommendations suited to soil type and crop requirements
