

These prices are indicative only and can change without notice due to the variability of the cost of source products

Products marked (BioGro) are certified for use in BioGro certified Organic products. For further information, refer to <https://www.biogro.co.nz/>

Home Garden Solid Products

Product	Size	Price (incl. GST)	Description
EF Activated Carbon (BioGro)	10kg	\$ 29.00	Bio-Char is an enduring carbon source with amazing plant growth enhancement properties
EF BAS 50 (BioGro)	20kg	\$ 20.00	Trace minerals sourced from highly paramagnetic basalt rock
EF Bio Rocket	5kg	\$ 22.00	Soluble; humate stabilised; N, P, S and Ca to increase soil energy
	20kg	\$ 74.00	
EF Calcium Trigger	1kg	\$ 5.00	Stimulates root growth, boosts calcium levels for higher brix crop growth
	10kg	\$ 11.00	
EF Calci-Sil	20kg	\$ 20.00	Great source of plant-available calcium
EF Compost	15kg	\$ 12.00	Improves soil fertility. Nutrient rich compost is high in organic matter. Screened to ,40mm for ease
	1t	\$ 189.00	of application.
Diatomaceous Earth	1kg	\$ 5.00	A physical, biological pest control option
	10kg	\$ 52.00	
	1t	\$ 189.00	Improve soil fertility by increasing microbial activity and storing plant nutrients
EF Fulvic Acid Powder	1kg	\$ 27.00	Promotes crop residue decomposition, boosts plant immunity, enhances seed germination and early
	25kg	\$ 495.00	growth
EF Garden Mulch	1t	\$ 96.00	Great way of saving water and suppressing weeds
EF Nano Cal	20kg	\$ 28.00	Fine micron calcium carbonate, trace minerals and sugar to promote beneficial soil bacteria growth
EF Natures Garden Fertiliser (NGF)	5kg	\$ 18.00	Full-spectrum biological soil and plant nutrition suitable for vegetables, flowers and fruit
	20kg	\$ 45.00	
EF Natures Nitro (BioGro)	15kg	\$ 37.00	Contains EF Raw Humates along with high levels of calcium and carbon to detoxify soils, balance soil pH and improve water holding capacity
EF Natures Organic Fertiliser (BioGro)	5kg	\$ 17.00	General garden fertiliser. A blend of Soil Force, Recharge and BAS 50
	20kg	\$ 41.00	
EF Raw Humates (BioGro)	15kg	\$ 28.00	Good for improving the soil water-holding capacity. Fungal food, detoxifier and nutrient stabiliser

Home Garden Solid Products (continued)

Product	Size	Price (incl. GST)	Description
EF Recharge (BioGro)	20kg	\$ 28.00	Composted calcium carbonate with EF Raw Humates
EF RPR	20kg	\$ 23.00	
EF S.A.R Spray - makes 5 Litres	100gm	\$ 12.00	EF S.A.R Spray induces chemical receptors in plant leaves to trigger a response throughout the whole plant. This leads to robust plants with improved tolerance and higher nutrient density and yields.
- makes 25 Litres	500gm	\$ 29.00	
- makes 50 Litres	1kg	\$ 46.00	
EF Soil Conditioner (BioGro)	15kg	\$ 17.00	Provides calcium, sulphur and carbon while performing as a soil conditioner and amendment.
EF Soil Force (BioGro)	20kg	\$ 41.00	Composted RPR with humic acid, fish protein and basalt rock dust
EF Soil Mag (BioGro)	20kg	\$ 20.00	Composted magnesium containing crushed serpentine rock, raw humates and fish
EF Soluble Humates	20kg	\$ 66.00	Increases CEC, protects against sodium and pH fluctuations, increased aeration and has natural chelating capacity
EF Soluble Nitrocal	25kg	\$ 44.00	Increases calcium availability, providing both nitrate nitrogen and ammonium nitrogen,
EF Water Acidifier	1kg	\$ 70.00	For lowering spray pH (chemical) solutions to enhance chemical half life. Spray to induce the flowering mode of plants.

Home Garden Liquid Products

Product	Size	Price (incl. GST)	Description
EF ACE	1L	\$ 17.00	Liquid Fulvic acid. Add to foliar feeds, animal feeds and as herbicide amelioration
	5L	\$ 43.00	
	20L	\$ 76.00	
EF Activated Carbon Foliar (BioGro)	1L	\$ 17.00	Liquid Bio-Char is a stable carbon source with amazing plant growth enhancement properties
	5L	\$ 33.00	
	20L	\$ 84.00	
EF Bio-Cal (BioGro)	1L	\$ 17.00	Liquid calcium spray to lift calcium availability in soil
	5L	\$ 31.00	
	20L	\$ 76.00	
EF Cal Bor (BioGro)	1L	\$ 17.00	Micronised boron with liquid kelp and humates
	5L	\$ 33.00	
	20L	\$ 102.00	
EF Cal Phos (BioGro)	1L	\$ 17.00	Liquid micronised RPR used to increase calcium and phosphate availability and boost Brix reading
	5L	\$ 29.00	
	20L	\$ 76.00	
EF Carbon Plus	125mL	\$ 56.00	A powerful surfactant which improves moisture absorption. Increased yield for the same fertiliser usage
	1L	\$ 173.00	
	5L	\$ 863.00	
EF Fish Plus (BioGro)	1L	\$ 17.00	Organic foliar feed. Contains hydrolysed fish and kelp
	5L	\$ 55.00	
	20L	\$ 102.00	
EF Glypho-Mate (weed spray)	1L	\$ 23.00	Use this product if glyphosate herbicide is required, as it reduces negative soil impacts
	5L	\$ 101.00	
	20L	\$ 253.00	
EF Humus Builder	1L	\$ 17.00	Boosts photosynthesis, root growth, rhizosphere microbes and humus creation
	5L	\$ 39.00	
	20L	\$ 76.00	

Home Garden Liquid Products (continued)

Product	Size	Price (incl. GST)	Description
EF Liquid Alkaline Humates	1L	\$ 17.00	Potassium humate-based bio-stimulant with many benefits for soil and plant health
	5L	\$ 60.00	
	20L	\$ 102.00	
EF Liquid Kelp (BioGro)	1L	\$ 17.00	Full-spectrum foliar and soil trace-mineral supplement
	5L	\$ 55.00	
	20L	\$ 102.00	
EF Micronised Humates (BioGro)	1L	\$ 17.00	Humic acid-based bio-stimulant with many benefits for soil and plant health
	5L	\$ 77.00	
	20L	\$ 127.00	
EF Reproductive Foliar	1L	\$ 17.00	To ensure flower production and fruit set in tomatoes and fruit trees
	5L	\$ 43.00	
	20L	\$ 127.00	
EF Vegetative Foliar	1L	\$ 17.00	Full spectrum foliar nutrition to boost yield of nutrient-dense food
	5L	\$ 43.00	
	20L	\$ 127.00	
EF Vermicast	1L	\$ 15.00	
	20L	\$ 70.00	

ALL LIQUID PRODUCTS AVAILABLE IN 200L, and 1,000L. Price available on application.

Microbes/Innoculants

Product	Size	Price (incl. GST)	Description
EF 10/25 Soil Microbes	100g	\$ 22.00	Mix of bacteria and predatory fungi acting to improve soil structure and fertility.
	1kg	\$ 127.00	
EF Bacillus Subtilis	1kg	\$ 102.00	Controls Powdery Mildew and Downy Mildew, triggers plant immune system activation. Non-toxic
EF Bio-Vam	100g	POA	Temporarily unavailable
	500g	POA	
	1kg	POA	
EF Combo 12 Powder (12 species)	100g	\$ 22.00	Predatory fungi and insect parasite mix for dealing with plant pests and diseases, including potato psyllid
	500g	\$ 76.00	
	1kg	\$ 127.00	
EF Compost Tea Brewing Kit	each	\$ 281.00	20L compost tea brewer (makes 1000L in total); a liquid fertiliser, bio-stimulant and pest management tool
EF Microbe Food (BioGro)	1kg	\$ 17.00	Microbe food formula to encourage rapid multiplication of microbes for compost tea and microbe brews
	5kg	\$ 66.00	
	10kg	\$ 121.00	
EF Natural Fermenters	1L	\$ 17.00	Foliar fertiliser with beneficial microbes present
	5L	\$ 32.00	
	20L	\$ 102.00	
EF P.S.A Brew	1000L	\$ 600.00	Increases beneficial microbial diversity on vine foliage and in soil, with no with-holding period. Non-toxic
Replacement Microbes and Food		\$ 140.00	For compost tea brewing. Makes 1000L

Chelates

Product	Size	Price (incl. GST)	Description
Boron Chelate (BioGro)	1L	\$ 27.00	Micronutrient fertiliser that provides readily available boron for plants
	5L	\$ 89.00	
	20L	\$ 297.00	
Cobalt Chelate (BioGro)	1L	\$ 25.00	
Copper Chelate	1L	\$ 20.00	Micronutrient fertiliser that provides readily available copper for plants
	5L	\$ 70.00	
	20L	\$ 278.00	
Iron Chelate (BioGro)	20L	\$ 17.00	Micronutrient fertiliser that provides readily available iron for plants
	5L	\$ 60.00	
	20L	\$ 198.00	
Magnesium Chelate	1L	\$ 17.00	Micronutrient fertiliser that provides readily available magnesium for plants
	5L	\$ 60.00	
	20L	\$ 198.00	
Manganese Chelate (BioGro)	1L	\$ 17.00	Micronutrient fertiliser that provides readily available manganese for plants
	5L	\$ 60.00	
	20L	\$ 198.00	
Molybdenum Chelate (BioGro)	1L	\$ 17.00	Micronutrient fertiliser that provides readily available molybdenum for plants
	5L	\$ 60.00	
	20L	\$ 198.00	
Selenium Chelate (BioGro)	1L	\$ 38.00	Micronutrient fertiliser that provides readily available selenium for plants
Zinc Chelates (BioGro)	1L	\$ 20.00	Micronutrient fertiliser that provides readily available zinc for plants
	5L	\$ 70.00	
	20L	\$ 278.00	

Animal Health

Product	Size	Price (incl. GST)	Description
EF Molasses (BioGro)	1L	\$ 8.00	Supplementary stock feed, also sold in 1000L Pods
	5L	\$ 31.00	
	20L	\$ 50.00	
	200L	\$ 253.00	
Poultry Minerals	5kg	\$ 32.00	Poultry food additive to enhance health, growth and egg production
	20kg	\$ 127.00	
Poultry miticide	1L	\$ 17.00	Biological mite control that enhances poultry health and egg production
	5L	\$ 52.00	
	20L	\$ 152.00	
Stock Lick (powder)	20kg	\$ 92.00	Top quality vitamins and minerals, amino and humic acids plus ag salt for healthy stock
Stock Primer for Pigs, Goats, Chickens and Dogs	1L	\$ 17.00	Humate-based mineral drench/ food supplement for chickens, dogs, cattle, and sheep
	5L	\$ 61.00	
	20L	\$ 152.00	
Equine Stock Primer (No Selenium)	1L	\$ 17.00	Powerful detoxifier, improves digestion and reproduction, promotes vigour and wellbeing in horses
	5L	\$ 61.00	
	20L	\$ 152.00	

Soil Testing and Recommendations

Product	Size	Price (incl. GST)	Description
Reams Soil Test	each	\$ 76.00	Tests the plant-available minerals in the soil
Reams Paramagnetism soil test	each	\$ 13.00	
Reams Humus soil test	each	\$ 19.00	
Melhich 3 soil nutrient analysis	each	\$ 265.00	Cation Exchange Capacity (CEC) soil test carried out by Southern Cross University in Australia
Hill Laboratories soil test	each	\$ 279.00	
Hill Laboratories herbage	each	\$ 253.00	Trace minerals analysis of herbage
Microbial activity soil foodweb test	each	\$ 392.00	
Fertiliser recommendations	each	\$ 180.00	Analysing the Reams Soil Test results, EF technical consultants will make recommendations suited to soil type and crop requirements

Equipment

Product	Size	Price (incl. GST)	Description
Bulk Spray Unit	each	POA	
Garlic Crushers	each	\$ 51.00	Strong, robust garlic crusher for extracting juice from plants to measure brix levels
Hose venturi diluter units	each	\$ 20.00	Fast, convenient, hassle-free liquid foliar feeding while watering your garden from 5L container
MRET device	each	\$ 750.00	MRET Water Activator. It closely resembles the natural geomagnetic field found near healing water springs. This is a non-chemical bio-safe process of water activation.
Refractometers	each	\$ 165.00	For measuring the brix (sugar content) of plants
